

KPI Report

This report summarizes automated verification results for the reference list associated with the manuscript under review.

Article under evaluation: **Visualizing Spatial Distribution of Poly(n-Alkyl Acrylates) Aggregates in Pressure Sensitive Adhesive Films.**

Synopsis: 55 confirmed good, 0 blocked by host site, 0 likely bad references (of 55 total).

1. Microstructure of Bottlebrush Poly(n-Alkyl Methacrylate)s beyond Side Chain Packing
2. Long Alkyl Side Chains LDT AH115 polymer (); Photo of Smart Simultaneously Improve Mechanical Robustness and Healing Ability substrate of VAHEAT system (); TRA spatial of a Photoswitchable Polymer. *Macromolecules* 2020, 53
3. On the films stained with different dyes (-S5); Crystallization Behavior of Frustrated Alkyl Groups in Poly(n-Contact angle and surface energy information on PSA Octadecyl Methacrylate)
4. *Langmuir* 2002, 18
